Dental care resource guide

Delta Dental of Missouri publishes this dental care resource to provide information about low-cost and free options to those who cannot afford dental care. The low-cost and Federally Qualified Health Center (FQHC) options listed provide dental services at a discounted rate or sliding fee scale for those with limited financial means. Free clinics and programs provide services at no cost and are made possible by volunteer dental professionals. It is important to always call the providers listed to ensure eligibility and availability of services. Many require an appointment.

Transportation services catalog:

The Missouri Department of Health and Senior Services provides a catalog of free or low-cost transportation services to assist Missourians with transportation to medical appointments. The transportation resource is available on the department's website at:

<http://www.health.mo.gov/atoz/pdf/transportationservices.pdf>.
